CommunityCARE 2.0 Utilization Reports

Now available on www.laMedicaid.com

The **CommunityCARE 2.0 Utilization Reports** is a web based application designed to provide CommunityCARE PCPs with a tool to use in managing the care of the enrollees and includes detailed information on the enrollees' utilization of services. The information is updated monthly using claims data for the previous month and is reported based on paid claims per 100 enrollees linked to their practice. PCPs with less than 100 linked enrollees will not have their percentages calculated or included in the statewide averages, but the enrollees will display on the report.
